

# PRACTICAL LUBRICATION MANAGEMENT

Lubrication Training & Consulting

**DES-CASE**

# “Textbook” Isn’t Always Quick Or Practical.

**W**e understand textbook best practices aren’t always possible, and that’s why we’re dedicated to helping people develop more practical solutions for their situations. Our team of lubrication experts has more than 75 years of combined experience in the field, enabling them to provide real-world advice that can be implemented quickly and realistically.

If you have lubrication problems, but don’t know where to start or simply need a clear roadmap of how to execute, Des-Case Lubrication Consulting and Training can give you the tools and advice you need.

Visit [Lubrication-Training.com](http://Lubrication-Training.com) to test your lubrication IQ. Or, take our sample benchmark assessment at [Lubrication-Consulting.com](http://Lubrication-Consulting.com) to see how your company stacks up against best-in-class lubrication programs.

Talk to one of our services experts to find out how Des-Case helped the following companies win the Battle Award for excellence in machinery lubrication:

- Clopay Plastics
- Valero Energy Corp.
- Cargill Corn Milling
- Eli Lilly & Co.
- INVISTA
- Nissan

TRANSFORM YOUR LU

### **I need a roadmap.**

Let us help you with the layout of your lube room, design equipment modifications coupled with a contamination control strategy, design your oil sampling and analysis program, or optimize your lubrication PM's. Des-Case can provide a total solution for all facets of your lubrication program.

### **I need training.**

Attend a complimentary 1-day lubrication overview workshop, a 3-day practical machinery lubrication course, or earn ICML certification with one of our onsite training classes. With color training manuals, a comprehensive companion guide, and instructors who have implemented precision lubrication programs globally, Des-Case training offers the best value in the industry.

## Count on Des-Case to Help Design Your Total Solution.

### **I need help justifying the investment to management.**

Having difficulty getting buy-in from the rest of the plant? Des-Case offers benchmark assessments, gap analysis and support building a business case for lubrication improvements to show you and plant management the true value of precision lubrication.

### **I need help with executing and implementing a plan.**

From storage and handling setup to turn-key filtration installation to reclamation and custom filtration, we will help you with execution and implementation of your lubrication program.

# BRICATION PROGRAM.

# WHY COUNT ON DES-CASE?

## **Experience**

Our team of lubrication engineers has collectively been doing this for more than 75 years.

## **Realistic, helpful, hands-on approach**

We offer practical advice and tools that can be implemented quickly and realistically. You may learn “text-book” best practices in the classroom, but “real-world” preferred-practice is what needs to be implemented to help you successfully execute.

## **More than a manual**

Ever feel like you’re getting “textbook advice” from consultants, but when it comes to implementation and follow-through, you’re left in the dark? With a detailed roadmap, assigned project manager, practical advice, and local distributor support, Des-Case can help with everything from implementation to execution.

Before, during, and after your project, you can count on the professionals at Des-Case.
